From: Dr. Megan C. Good
Subject: Letter of Recommendation – Donna Rivas

This letter will serve as a recommendation for **Donna Rivas**. I have known Donna since 2022 while she pursued a **Bachelor of Science in Business Administration (BSBA)** degree at Cal Poly Pomona, with a major focus in **Marketing Management**.

Donna completed my Professional Selling course, which provided her a thorough introduction to various strategic revenue generating tactics that apply to her interests in business management and sales. I worked closely with her while I supervised a rigorous real-world project and was impressed with her tenacity and ability to perform and communicate under pressure.

Donna's class performance reflected a mature individual who was committed to learning and maximizing her classroom experience. While interacting with others, she was always prepared to discuss and share her ideas with those around her. These excellent communication skills not only indicated her strengths in effectively collaborating with others, but also reflected her strengths in her preparation (which I found to be excellent). Importantly, her peers were receptive to Donna's insights, and it is clear that they respected both her perspectives and her professional methods of delivery in and out of the classroom.

Moreover, many of the assignments and exams required extensive critical thinking and the ability to project outcomes that individuals and /or organizations would experience based on decisions made in the framework of professional business-to-business sales. As a result, skills such as strategic critical thinking and unsupervised problem-solving were premium tools honed within this dynamic environment. Donna performed very well in these areas and will be a great fit for the **Sales Consultancy** position with your organization, to which she applied.

As a final point, Donna demonstrated the quality of her character every day on campus and in professional environments, with a high degree of accountability to her learning and a strong work ethic in her responsibilities.

In conclusion, I have confidence she is a trustworthy person of the highest integrity and **I highly recommend Donna Rivas**. If you have any questions, feel free to contact me.
